

What is iCureCeliac®?

iCureCeliac® is a free online registry that gives patients and caregivers the opportunity to fill out surveys about their health to advance the development of better treatments and, one day, a cure for celiac disease. Join the more than 6,500 members participating in iCureCeliac®, helping us solve celiac disease.

50%

Are still symptomatic even while following a strict gluten-free diet

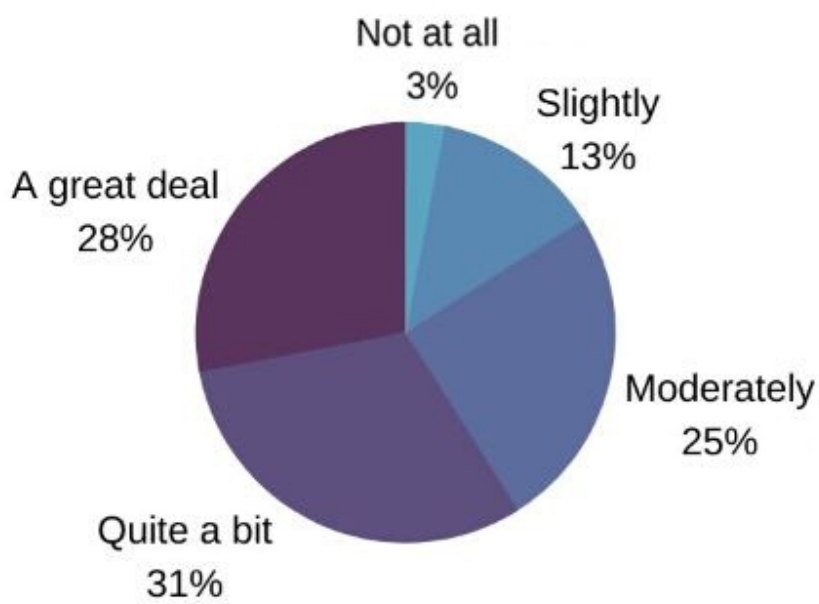

60%

Feel that the gluten-free diet is not a sufficient treatment for their gluten-related disorder

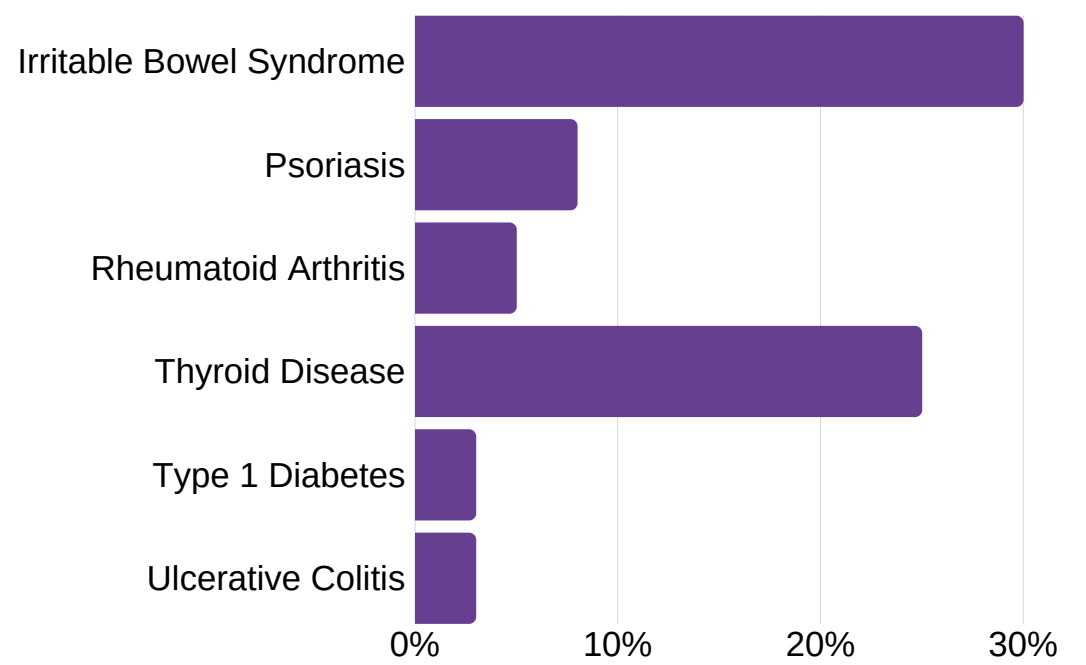

57%

Saw three or more healthcare providers for their gluten-related disorder prior to diagnosis

How much patients feel limited by their gluten-related disorder

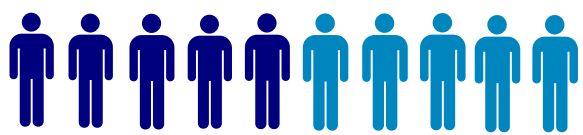

Top Comorbid Conditions with Celiac Disease

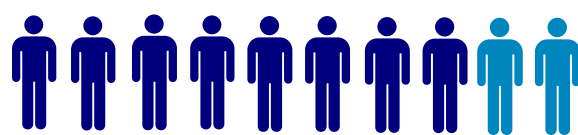

52%

Are diagnosed with a mental health condition.

84%
